We would like to thank every one of you, wo have supported us over the past years. Without your help, most of what we purchase wouldn't be possible. This year we will be using the money we raise to help purchase new SCBA's to replace the noncompliant units we have now. These 15 units, along with spare tanks, allow us to breath clean air in hazardous fires and accident scenes. These units cost approx. \$6,000.00 each.  
**THANK YOU!!!**
