Re: Stormy Lake Boat landing

The Town of Conover is soliciting bids for Engineering and construction oversight services for the reconstruction of an existing town owned boat landing. The Town of Conover has been successful in receiving rehabilitation grants in the amount of \$73, 423.00 from the Wisconsin Department of Natural Resources and the Federal Government.

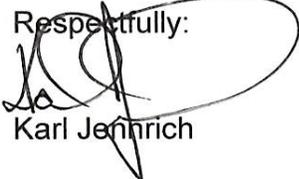

Information that can assist prospective bidders and is posted on the Town of Conover website are:

1. There is a current survey of the property (not posted).
2. The Town of Conover has a preliminary design and cost estimate.
3. The Town of Conover has obtained WDNR GP-NO-2016-64-00415
4. The Town of Conover has obtained Grant # RBF1565.

The Town of Conover has a limited budget for the project and the engineering firm selected would be responsible to keep us within that budget.

I will be acting as the contact person on behalf of the Town of Conover. My contact information is listed above. Bids are due by December 2, 2016.

Respectfully:

Karl Jennrich
